Introduction

We live in a rapidly changing world. This statement has never been truer. The year 2020 changed almost every aspect of life in our community: the way we live, work, learn, and socialize. Some of these changes may be temporary and fleeting, other changes may shape our futures.

Throughout the current pandemic, Hamilton Township Public Library has responded to changing directives and restrictions, with innovations in service and a strong commitment to reaching and serving our community. While these past months have shown us that it is impossible to plan for everything, they have also shown us that dedication to our vision and mission can guide us through any situation.

The leadership of Hamilton Township Public Library believes that a successful strategic plan provides the framework for organizational change, service enhancement, and innovation to guide us to be the best possible Library for the community. It is our challenge and privilege to present this strategic plan at this moment in our local and national history.

Background

It is readily apparent that Hamilton treasures its Library, and views it as a valuable resource. Use continues to rise every year. In 2019, the Library hosted over 46,500 computer users and 489,898 visits to the Library (the equivalent of 5.6 visits per Hamilton Township resident). A total of 40,466 reference questions were answered. Over 52% (41,311) of Hamilton Township residents aged 10 and up hold Library cards. Book and ebook circulation was 171,446, an average of 4.2 books per card holder. In addition, over 39,990 people attended meetings in Library meeting rooms in 2019. (Or the equivalent of more than half of the population came to the Library for a non-traditional reason).

Hamilton Township and the Friends of the Hamilton Township Library provide robust financial support, and the Library is fortunate to be the recipient of private monetary and property donations, both restricted and unrestricted. We are committed to providing the best possible service to our community because it deserves nothing less. Over the next five years, the Library will continue to enrich its service offerings while examining and improving its internal processes in order to ensure the best allocation of resources and the best delivery of services to a demanding public.

Library Profile as of Fiscal and Calendar Year 2020

CURRENT SERVICES

The Library offers traditional circulation and reference services; programs for children and teens; online databases and instructional, test preparation software; faxing and notary service; online Internet access (filtered and not filtered); and color and black and white printing. Wifi is accessible everywhere within the facility and parking lot. All online services are available with a Library card all the time from any computer. Meeting rooms with a computer projector and public address systems are available for large and small groups.

Current personnel are Director, six full-time librarians, two part-time librarians, thirteen full-time clerks, one part-time clerk, one historian, and two full-time maintainers. All Library employees are unionized and contracted with their Township employee counterparts. The Library contracts with the Township for legal, accounting, and human resources support. Technology is maintained by a consultant with Microsoft and Cisco certifications.

FUNDING

Annual funding is over \$3.02 million (Note: This figure is down from the \$3.27 million in funding the Library received in 2010). Funding of needed equipment is supplemented by the Friends of the Library book sales. The Library has no grant funding but is the recipient of approximately \$1,000 per year in restricted donations which are maintained in a trust account. The Library has designated over 75% of its surplus funds to future capital improvements.

Our Levels of Service and Planning Indicators

The Library's level of service and trends in specific areas is as follows:

- Ebook circulation over the past three years has grown rapidly from 18,657 (2017), 20,314 (2018), to 26,648 (2019).
- Wireless computing sessions increased from 11,998 in 2016 to 12,376 in 2018, to 14,170 in 2019.
- Public Internet sessions increased significantly between 2016 (29,708) and 2018 (34,139), but decreased in 2019 (30,307), possibly due to the large increase in wireless computing sessions (above).
- Reference questions in the last three years went from 46,297 (2017), to 40,419 (2018), to 40,466 (2019). This decrease from 2017 may be attributable to the increases in use of wireless computing, and public Internet sessions, as patrons seek answers online.
- Program attendance in the last three years went from 43,726 (2017), to 42,259 (2018), to 39,991 (2019). This decreasing trend may be due to increasing access to entertainment and programming online.

- Library visitors in the last three years went from 541,938 (2017), to 529,262 (2018), to 489,898 (2019). This decreasing trend may be attributable to the increases in use of online resources, such as ebooks.
- Children attending the Summer Reading Program in the last three years went from 444 in 2017, to 459 in 2018, to 317 in 2019. The Library is looking into the decline in participation in 2019.
